

33,000

FOOT-POUNDS PER MINUTE ...

is the power exerted by a horse. B & D Portable Electric Tools will give you the power without the exertion. It is only 'horse-sense' to appreciate their efficiency, lightness and speed. Remember the way these Tools are meeting present-day demands in industry, and use them when planning your production in the future.

The HOLGUN is one of the wide range of B & D Portable Electric Tools.
